Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Granite or whinstone, as built, insulated (assumed)	Good
Window	Single glazed	Very poor
Main heating	Boiler and underfloor heating, electric	Very poor
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Very poor
