Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	System built, as built, insulated (assumed)	Good
Window	Fully double glazed	Good
Main heating	Warm air, Electrique	Very poor
Main heating control	No time or thermostatic control of room temperature	Very poor
Hot water	Electric heat pump for water heating only	Poor
Lighting	Low energy lighting in all fixed outlets	Very good
